

Information architecture for Animal Shelter web application

15 topics related to an Animal Shelter web application:

1. **Home Page:** The main landing page with general information about the shelter and featured animals.
2. **Adoptable Animals:** A section or page displaying all the animals available for adoption, with detailed profiles for each.
3. **Adoption Process:** Information about the steps involved in adopting an animal, including forms and requirements.
4. **Volunteer Opportunities:** Details about how to become a volunteer at the shelter, including applications and training.
5. **Donate:** Information on how to make monetary or in-kind donations to support the shelter's operations.
6. **Foster Care:** Details about fostering animals, including application forms and guidelines.
7. **Events:** Listings of upcoming events, such as adoption drives, fundraisers, and educational workshops.
8. **Lost and Found:** A section for reporting lost or found pets and resources for reuniting them with their owners.
9. **Education:** Resources for pet owners, including articles on pet care, training, and behavior.
10. **About Us:** Information about the shelter's history, mission, staff, and contact details.
11. **Success Stories:** Stories and photos of animals that have found forever homes through the shelter.
12. **FAQ:** Frequently asked questions about the shelter's policies, procedures, and pet care.

13. **Contact Us:** Various ways to get in touch with the shelter, including a contact form and location information.
14. **News and Updates:** A blog or news section with updates on shelter activities, achievements, and pet-related news.
15. **Resources:** Links to external resources, such as local veterinarians, pet supply stores, and other pet-related services.

Emily's card sorting:
